

Equipment Operator

Position Summary

The Equipment Operator is responsible for safe and technically proficient operation of equipment to which you are assigned.

Reports To: Foreman/Superintendent

Status: Full Time, Hourly

Responsibilities:

- Fill out equipment condition reports daily as well as the daily check list of work to be done on your piece of equipment. This checklist should be documented on the daily equipment report, which is required to be filled out and turned in to the Project Superintendent daily.
- The machines must be cleaned regularly. This includes sweeping out the cabs and removing trash daily, clean interior weekly, and lubricate doors and windows bi-weekly.
- Understand and comply with all Company safety policies and procedures. Know where all utilities within the work zone are located. Be responsible for own safety as well as that of those working in the area.
- Before the end of the day, make sure you let your Superintendent or Foreman know if you are low on fuel so the fuel truck can be scheduled for the next morning.
- Make a note on your equipment report and let your Superintendent know if you need any supplies, i.e.: grease, oil, rags, cleaning supplies, or if the machine needs to be steam cleaned.

Qualifications:

- 3-5 years of Operator Experience in Heavy Civil Construction
- OSHA 10 Hour training preferred

*The Middlesex Corporation is an “Equal opportunity employer-vets/disabled”
