

AGC's LEAN Construction Education Program UNIT 2: PULL IN PRODUCTION

Thursday, March 20, 2014 | 8:00 am – 12:30 noon

AGC of Connecticut is pleased to offer **Unit 2** of AGC of America's Lean Construction Education Program: **Pull in Production**.

Lean Construction challenges all project stakeholders to develop and apply better ways to manage the overall construction process. **Unit 2: Pull in Production** is a half-day course that introduces the concept of *pull* as a means to reliable workflow. In the construction process, the work we do is all connected and variation in even one of those processes affects us all.

This course provides tools to help participants recognize sources of variation on their own projects, examine variation's effect on operations, and mitigate the effects of variation in their every-day work.

Following completion of this course, participants will have the ability to:

- Compare batch-and-queue and continuous-flow production systems
- Distinguish push systems from pull systems
- Describe the impact of pull on production systems
- Explain pull strategies in construction operations

Date: **Thursday, March 20, 2014, 8:00 a.m. to 12:30 noon**
Location: **CCIA, 912 Silas Deane Highway, Suite 112, Wethersfield, CT**
Instructor: **Colin Milberg, ASKM & Associates**

Colin Milberg has 15 years construction management experience, has worked with public and private organizations assisting project teams and organizations to implement Lean Construction and Enterprise practices. He has a Ph.D. from University of California, Berkeley; he co-founded the Lean Construction Institute San Diego, and is on the core group of LCI New England.

Cost: **\$225** per person (*members*) (Includes 6.35% CT Sales Tax)
\$325 per person (*non-members*) (Includes 6.35% CT Sales Tax)
Checks payable to AGC of Connecticut
Credit cards accepted; please complete below and fax* back or contact Kathy at 860-529-6855
*please do **not** email credit card information

REGISTRATION | UNIT 2: PULL IN PRODUCTION | March 20, 2014

Contact Name: _____ Company Name: _____

E-Mail Address: _____ Phone: _____

Names of Attendees: _____

Amount Due: \$ _____ | ☐ Check Enclosed ☐ Pay by Credit Card (complete below)

Credit Card Type: ☐ Visa ☐ MasterCard ☐ Discover
Cardholder Name _____
Card Number _____
Expiration Date _____ Zip Code _____
Card Billing Address _____
CVV2 _____ (3 digit number on back of Visa/MC, Discover)

Please fax (860-563-0616) or e-mail (jwilhelm@ctconstruction.org) registration to John Wilhelm

*please do **not** email credit card information

Send payment to: AGC of Connecticut, 912 Silas Deane Highway, Suite 112, Wethersfield, CT 06109

AGC's Lean Construction Education Program

UNIT 2: PULL IN PRODUCTION

Thursday, March 20, 2014 | 8:00 am – 12:30 noon

An Associated General Contractors of America (AGC) Education Program

About AGC's **LEAN** Construction Education Program

To develop the tools needed to build lean, the Associated General Contractors of America (AGC) has developed the Lean Construction Education Program. Construction professionals at all experience levels will learn the building blocks necessary to transform their projects and companies into a lean operating system.

AGC's Lean Construction Education Program is a series of courses that progressively cover a range of topics essential to Lean Construction, including:

- Variation and pull in production
- Lean workstructuring, supply chains, and assembly
- Production management
- Management by values
- Problem-solving principles and tools
