Phone: 860-529-6855

FAX: 860-563-0616

## DEMONSTRATION OF PROPYLENE

### Hocon Industrial Gas

will do a demonstration with a cutting gas called propylene. It is a gas that was designed to cut and heat unlike acetylene, which is a welding gas.

With propylene, you also use about one fifth the amount of gas used with acetylene. Consequently, savings for a company can be significant.

## LOCATION

### The Hills, An Authentic Grill

660 Park Road

Waterbury, CT 06780
