Presentation by National Utility Contractors Association

Presented by: NUCA President Terry Dillon, who is also founder and President of Atlas Excavating in Indiana

UCAC is pleased to have the President of national organization visit with us with updates on legislative and economic issues affecting the utility and site construction industries. A national and Inside Washington perspective will address topics such as Clean Water Funding, the industry's economic outlook, concerns of utility contractors around the country, and how UCAC and NUCA members can be part of the solutions.
