

## Construction Quality Control Manager

Empire Paving, Inc., one of Connecticut's leading Heavy/Highway General Contractors, has an immediate opening for an experienced Quality Control Manager. Current projects are located in Central, Western and Southern Connecticut.

Qualified candidates should possess the following:

NETTCP QAT license required

Degree in Civil Engineering or Construction Management required

Minimum 10 years experience in implementing QC programs in a construction environment

Previous experience as Quality Control professional (Technician or Manager)

Additional NETTCP & ACI licenses

Bluebeam Revu/Adobe IX experience preferred

Microsoft Office experience

Responsibilities will include:

- Prepare or review Daily Inspection reports from QC Technicians for all work completed by construction crews
- Prepare Monthly QC reports
- Monitor daily QC inspections on all aspects of work (HMA Placement, Soil Compaction, Concrete pre-placement & placement testing)
- Coordinate testing and QC needs with QC Technicians on a daily basis
- Ability to self-perform testing preferred but not required
- Coordinate with independent testing companies for sample drop-offs and follow up with test report results
- Report directly to Quality Control Administrator and Project Manager. Coordinate with QC technicians, subcontractors, foremen, superintendents, engineers & State/Owner representatives
- Attend and contribute to monthly QC meetings
- Full-time Mid to Senior Level
