Risk starts even before you do

Before you break ground, there are risks that can threaten the success of your project ranging from contractual and surety needs to environmental exposures and site security. And once construction begins, even more risks arise.

Now is the time to have a close working relationship with an insurer that understands the construction industry. Don't start without us.

Our Construction All Lines Insurance Program:**

- Provides extensive coverage options, including the potential for an annual flat dividend*** on its workers compensation premium.
- Includes construction-dedicated underwriting, risk control and claim services.
- Is available to all CCIA contractor members through a local Travelers agent.

All of this backed by the financial strength and stability of a national carrier based right here in Connecticut.

860.277.4019

860.529.6855

860.426.6176

**Travelers All Lines Insurance Program is offered in conjunction with the Connecticut Construction Industries Association and AssuredPartners. Travelers pays a fee for CCIA's endorsement of this program.
***By law, dividends cannot be guaranteed in advance. Other limitations or restrictions may apply.
