

Supervisory Training Program

Unit 6: Risk Management and Problem Solving

Unit 6: Risk Management and Problem Solving

This course covers the roles and responsibilities of a construction supervisor in accident prevention and loss control. This unit will help students identify potential sources of risk and through effective problem-solving techniques, learn to manage, eliminate, or minimize them.

Following this course, participants will be able to identify, manage, and solve risk-related problems specific to construction throughout each project.

Topics covered in this lesson include:

- Safety leadership, communication and expectations
- Planning for site safety
- Site safety management
- Site security and protection
- Multi-employer jobsite safety
- Construction risk management
- Safety and human resources
- Regulatory procedures, record keeping and documents

Instructor: Peter Etzel, Etzel Consulting LLC
