**CCIA Equipment Maintenance Forum
Application for Membership**

I hereby apply for membership in the CCIA Equipment Maintenance Forum. I agree to abide by the rules of the forum. I certify that I am eligible for membership due to my occupation as a "person connected with the manufacture, sales, maintenance or repair of construction related equipment" (Article II, Section 1, EMF bylaws). Annual membership dues, which include the cost of dinner each month, are \$276.00.

About the CCIA Equipment Maintenance Forum

We are an informal, cooperative gathering of people who are involved with operating, maintaining, repairing, or managing construction equipment. We meet once a month to talk shop and hear a presentation on a construction equipment-related subject of interest.

One major benefit of belonging to the EMF is keeping yourself and your company up-to-date on new technology, information, and regulations applicable to shops and equipment. Another is plugging yourself into a network of experts in your field from all across Connecticut. The EMF Membership Directory in its soft binder is easily carried, so instead of having to “reinvent the wheel,” you can pull it out and call one of us, because we may know how to solve your problem, or we can tell you who you need to call. At each monthly meeting, you have cocktails available, dinner, and a presentation with over 1,000 years of construction equipment maintenance experience.

Recent Presentation Topics
