

# Lean Construction

EDUCATION PROGRAM

Lean Construction is based on the holistic pursuit of continuous improvements aimed at minimizing costs and maximizing value on a construction project: planning, design, construction, activation, operations, maintenance, salvaging, and recycling. AGC of CT invites your contractors to come and develop their knowledge for their own building blocks necessary to transform their projects into a Lean Operating System.

**13 Sessions Starting Jan. 25—Mar. 15, 2022**  
**12—3 pm EST**

**All Courses will be Virtual**
