

Connecticut Construction Industries Association

The CCIA Safety Committee Presents:
A SAFETY ROUNDTABLE DISCUSSION

A Heat Stress Protection Update

Presented By:
Chip Darius, OHST, CIT, CSHO
President, Safety Priority Consultants, LLC

OSHA is continuing to develop a nationwide standard on worker protection from heat stress. The national standard will require location-specific, task-specific, and health-specific applications. In June's Safety Roundtable, Chip Darius of Safety Priority Consultants will cover the latest resources and interpretations from OSHA, NIOSH, CDC, AGC, and decisions from the OSHRC.

The CCIA Safety Committee will meet immediately after the Roundtable at 1:15 p.m.

12:00 noon, Tuesday, June 14, 2022

This meeting will be hybrid. Feel free to join us in the CCIA Board Room for pizza at noon, or tune in remotely. Email your registration to bcampbell@ctconstruction.org, and we will send you a Webex invitation for both the Roundtable and the Safety Committee at 1:15.

Please register by Monday, June 13, 2022.
