

THE CCIA SAFETY
COMMITTEE PRESENTS:
A SAFETY ROUNDTABLE
DISCUSSION

OSHA

Verifying Competent Performance Requirements

by Chip Darius, OHST, CIT, CSHO
President, Safety Priority Consultants, LLC

Measuring the effectiveness of training at producing behavior change or performance improvement is challenging, yet many OSHA rules require employers to verify employees' competent performance after training. In our October Safety Roundtable, Chip Darius will cover OSHA's requirements for verifying that training has achieved its intended purpose, methods to measure training effectiveness, and more. What you'll learn:

Identify the OSHA rules that require some form of competent performance verification and if and when ANSI Z490.1 may also apply;

- Select and apply effective methods of verifying competent performance;
- Properly document your evaluations of training effectiveness to aid in OSHA compliance; and more....
